

WE'RE SEEKING A BILINGUAL FORENSIC INTERVIEWER TO JOIN OUR FORENSIC AND MEDICAL SERVICES TEAM!

The Chadwick Center for Children and Families at Rady Children's Hospital- San Diego, is one of the largest hospital-based Children's Advocacy Centers and trauma treatment centers in the nation. We provide family-focused and trauma-informed services to children and adolescents who may have experienced or witnessed maltreatment, abuse or violence.

The Forensic & Medical Services Program (FMS) provides vital services to children who have experienced maltreatment or witnessed violence, and their families. FMS is a part of the San Diego Child Protection Team (CPT), and works closely with the District Attorney's Office, Child Welfare Services, law enforcement, and other partners, in order to help keep children safe and healthy. FMS provides forensic interviews and medical exams as part of child abuse and other criminal investigations, advocacy to families, and short-term family intervention to reduce the likelihood that children will develop PTSD.

The Bilingual Forensic Interviewer will provide developmentally and culturally appropriate forensic interviews with children and/or adults with developmental disabilities who have experienced abuse and/or witnessed a traumatic event. The forensic interviewer uses a national, research-based model to conduct interviews. The Forensic Interviewer will also provide crisis intervention and risk assessments, safety planning; assess individual/family needs and cultural considerations, coordinate with other community partners, and provide appropriate mental health referrals within the Chadwick Center.

Minimum requirements: bilingual in Spanish and English; Master's Degree; and a minimum of 2 years of experience in the field of child abuse and multidisciplinary investigation.
